(By DEAN WILSON)

Canada's Delegation and Conference

It should be stressed now that though Canada and other parts of the British Commonwealth of Nations are united for certain purposes, yet the legal set-up of the British Commonwealth does not make either in law, nor in practice, for the establishment of any distinct "bloc" in international affairs in so far as the World Security Conference at San Francisco is concerned, and each part of the British Commonwealth can act in its own right. This must be borne in mind, this is recognized along Parliament Hill as absolutely essential to order that the man-in-the-street may be able to follow the gathering in the London of representatives of the British Commonwealth before the San Francisco Conference was in the words of a distinguished statesman, "not to get up against other nations." Moreover, this is the position of Canada's delegation at this gathering. In fact, there is machinery for a security organization. In consequence, to create machine for a security organization. In consequence, to create machine for a security organization.

Notwithstanding all the changes made in the Federal Cabinet lately, it is hinted in reliable circles in Ottawa that others will be forthcoming both before and after the general election, if the present Administration will be returned. It is known in back-stage circles that, first, a new cabinet reconstruction is expected, and second, the system of Parliamentary Assemblies is favored very strongly so that they may be responsible for many changes in the near future, some of a surprising nature, particularly where developments in the Official Opposition party warrant such changes to avoid criticisms. It is suggested that the addition recently of younger men in the Cabinet of Ottawa followed closely the fact that the Progressive Conservative Party has been putting forth candidates of younger age than usual, since it is reported that the average age of their candidates for the forthcoming election was under 40 years. Then again, there is a flood of rumours circulating in the capital that political changes may come after the general election, and these may involve important Cabinet changes, particularly in the Quebec representatives in the Cabinet, since it is said that when the war will end the draft issue will be a "made" leaders like the Hon. Carlin, Hon. Powers, and even Hon. Balton, may be induced to resign. At the moment, political groups of Quebec are multiplicity, and the division amongst the Liberals, including a party led by former Minister Carlin, who party being known as "Autonomist," and nationalistic in character: another group under Maynard, known as "Protestant," "Bible Populists," and so forth, though it must be realized that these are likely to be, and inclined to support Mackenzie King's Government in peacetime after the coming general election. Indeed, even amongst these various groups or parties in Quebec, favorable attitude towards Premier King are heard lately, in spite of the wide circulation to gossip that Premier King would resemble the subject of giving Canada a national flag and a national anthem at a later and stable time. When this question was raised in the recent

session of parliament, the Prime Minister replied that "this will depend on the opportunity he has to do so, and the appropriateness of the occasion."

Demand For Canada's Products
There is a most interesting situation developing in regard to the possibility of Canada sending more metals to other countries, especially to the United States. In the case of the United States, it is known that supplies of certain metals, such as zinc, copper, high grade iron, etc., are becoming rather short from a long range point of view, so that Canada may find a surprisingly good market there in time. However, in the past year the Canadian mineral production was valued at \$55,525,000, compared with \$30,054,000 in the previous year, or a decrease of \$4,120,000, with the reduction being principally in the metals group. Indeed, the value of all metals produced in Canada was \$49,241,000 less, or 14 per cent down, and it amounted to \$307,572,000. Nevertheless, this report of some increase in metal exports to the United States of other countries in time is of deep interest to Canadians, since there is much whisper in Ottawa at the moment, just as it is in other capitals, of the need for lowering the trade or tariff barriers throughout the world in order to help world peace and stability.

New President
In the midst of the quickening pace of world events, the death of President Roosevelt and the accession of Harry S. Truman to the Presidency of the United States has aroused as much deep interest in official as well as in unofficial circles in Ottawa. Moreover, it is held that the new President is a fervent and forthright man, and will carry out much along the lines of the late President Roosevelt, particularly in matters of foreign policy and relationship with Canada. Indeed, President Truman is known to be a dynamic and energetic generalization of American public life, where he has shown great fighting qualities of the kind which were linked with the late President Roosevelt ever since he became a Senator from Missouri in 1934, a new man in the post of chairman of the famous "Truman Committee" which acted as a watchdog of American expenditures in this war, until he was named as the late President Roosevelt's 1944 running mate in the fall elections. In short, the story heard backstage in Ottawa is that the new President, Harry S. Truman, will provide the same kind of courage and friendly leadership for the foreign relations, including those between Canada and the United States, as that which was peculiar or characteristic of the late President Roosevelt.

The choice of seed and sowing the extra cost must insure those who will receive the best results. It is unnecessary to buy this extra seed for foreign relations, including those between Canada and the United States, as that which was peculiar or characteristic of the late President Roosevelt.

IS THIS VICTORY LOAN DIFFERENT?

When, a few weeks ago, the Allied armies fought their way to the banks of the Rhine, that doughty warrior, Winston Churchill, called for "one more heave" to complete the defeat of the Nazis. That defeat, has now been accomplished; although this does not mean that the end is near. Outside of the Hitler gangsters (who have only war criminal trials in prospect), it is unlikely that any German, however socially or otherwise prominent, will set a hand to the terms of "unconditional surrender" that is demanded by the Allies. To do so, in face of Nazi mentality, would surely be to invite assassination. In consequence, there may be guerrilla warfare extending over months to come in Germany, and it is to be foretold that, on the other side of the world, there is the Japanese enemy still to be dealt with. It is not surprising, therefore, that more than "one heave," in the financial sense, will be required from those of us at home before these jobs are finished. In

8th VICTORY LOAN

Quota for Delia - \$135,000

Amount Subscribed up until Wednesday, April 15th: \$16,100.

Canada's Eighth Victory Loan the quota set for residents of the Delia district is \$135,000, and the committee is confident this sum will be subscribed and most probably surpassed. The really amazing sweep of the victorious Allied armies through Germany appears to have been accepted in a philosophical vein; but it should be realized that it was made possible not only by the valor of the fighting men of all the services, but by the loyal and unwavering financial support of the people at home, which provided, and must continue to provide, the necessary tools and armaments in overwhelming strength to back them up. Yes, this Victory Loan is different. In spite of the news of daily victories it is no time to slacken effort. Keep right on to the end of the road!

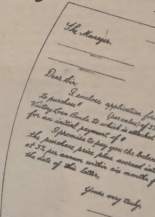

Your Victory Loan Salesman Will Call on You Soon . . . Give Him a Friendly Welcome

Everybody knows what a comforting thing it is to have money where you can get it when you need it. So, in most homes, the Victory Loan salesman gets a cordial welcome. He offers an opportunity to you to help your country's war effort by just saving your money. In case of emergency you can get cash for your bonds as you buy them, but you know that when you put savings into Victory Bonds they will likely stay there, intact . . . drawing good interest. Your savings are protected from your own temptation to cash them. Buy all the Victory Bonds you can, with all the cash you have.

Buy More Victory Bonds on the Deferred Payment Plan With Money as You Get It!

And, to give yourself an objective to add to your plan, obligate yourself to buy more Victory Bonds on the deferred payment plan. Make a first payment of 10% or more when you order the bonds . . . and pay the balance with money as you get it, over a period of six months. Your Victory Loan salesman will give you a copy of the letter on the right. It is a request to your bank to buy bonds for you. Any bank will lend you the money you do not have, and the interest he lends you earns pays the interest on the bank loan.

Mama, in front of the mirror, bent to brush her short, dark hair. After such a stroke, she paused, frightened eyes staring into the mirror. "Myrtle! myrtle! myrtle!" called cheerfully, looking at the woman who was slipping.

Papa called impatiently. "Ah! you've come to bed!" Mama, thus rebuked, pulled her shoulders down over her head and hurried through her other preparations. She went obediently to the street below.

W. L. Clark, in the Windsor Star, says, "Chaplain in the navy has no rank and was no rank before."

The line of having no rank is that a chaplain receives rank equal to that of a captain.

This plan of the Navy saves the man in the ranks the embarrassment that comes from being a commissioned officer.

Survivors Rescued

After Being Adrift On The Sea For Thirty-Two Days

The last of 48 survivors of an American Liberty ship, torpedoed in the Indian Ocean by an enemy submarine, have landed at a West Australian port after being adrift 32 days.

They were rescued by a British auxiliary carrier after they had just eaten their last provisions. The other survivors had been picked up previously by other merchant ships.

Nothing was known of the sinking for four days, because the ship's wireless was dead.

After the torpedoing, lack of night and in heavy seas the survivors got away in four lifeboats and six rafts. Thirty-three were killed.

Five Australian flyers were killed in the search when they "plane crashed." The search covered thousands of square miles and was carried out by units of the United States and British Navy and Allied merchant ships.

Love found a way to get around the war when the wife of a sailor in Winnipeg won members of the crew of the ship "Princess David," formerly of the Canadian Navy. The ship, arrived on June 15, was a happy occasion for the ship's crew.

This hired-man can do most everything!

POWER FARMING

There's a lot more than high quality tractor fuel in that familiar Imperial Oil drum... there's the ability to get almost any kind of farm work done in record time, with fewer men on the job. That's why Canadian farmers look on Imperial Fuels and Lubricants as the equivalent of an extra, versatile "hired man".

Keep your equipment at top efficiency by using only the correct grades of Imperial Oil Fuels and Lubricants—brought to your door by your friendly Imperial Oil Agent. And place your order NOW... so that you may have the correct grades and quantities on hand when you need them.

**From Papyrus to Paper
Took 34 Hundred Years**

**But modern initiative increased
Canada's paper production 36
Hundred times in 60 years**

Two thousand years before Moses led the Children of Israel out of the bondage of Egypt, the reign of Egyptian kings like those of the Pharaohs, for 34 centuries after that record progress of making paper as we know it today was directed by the Chinese. Nine centuries later came the most progressive step. Hand power gave way to foot power. Even as late as the 16th century three men working strenuously could produce only five reams in a 16-hour day.

Then as Man slowly found his way from a state of stereotyped humanity into a society of individuals progress gathered speed. Men of courage risked their savings and their lives. The entire world marched forward in their wake.

How Canada's Annual Paper Production Increased:
For 1881, valued at \$63,600
For 1941, valued at \$39,562,719

The Delia Times PUBLISHED WEEKLY 255 McMillen, Editor and Proprietor THURSDAY, APRIL 26, 1945

A MESSAGE FOR FARMERS:
Canadian farmers are confronted with a rare opportunity to some effective planning in their own interest and in that of the rest of the world. Dr. A. B. Hargrave declared recently in Alberta, has risen to \$722,000,000 in 1939 and to \$1,748,000,000 (estimated gross income) in 1944. While a good deal of the jump is represented by price increase, volume has held up well. Every important wartime call upon Canadian farm production has been substantially met, or more than met, in spite of labor shortage and shortage of new machinery. But while this magnificent record was being achieved the farm sector has been running down at heel, and that cannot go on forever. It is a good idea for every farmer to sit down and carefully consider a definite plan for the future, looking toward the improvement of his farm enterprise, the welfare of his family and the possibility of setting aside something for a nest egg and keeping it as a reserve against contingencies. Victory Bonds are the ideal means to these ends, but it must be remembered that \$1.00 will not do the work of \$2.00. Each farmer must consider what he needs most. Perhaps it is a well or a dugout, or water on part of the farm, or a new barn, or a new house, or a new tractor, or some good stock. Make a list of the desiderata and review it carefully.

And don't be in too much of a hurry to spend it all. There may be a buyer after the war as there was after the last war, in which case prices will strain the controls. Some of the dollars may buy more if they are held two or three years after the war. By buying bonds now and thinking out a careful plan of using the proceeds later on we may not only help to win the war, but help to win the peace as well.

The war of years is between nations. The war of ideas now is between them.

SAN FRANCISCO?

History unfolds like a great drama, for long periods slowly developing and now moving at bewildering speed with triumph, with tragic turns and contrasts. While one act in Europe draws to a close, the stage is already being set for the next scene at San Francisco. Is it to be another tragedy? Or the foundations of a world at peace?

In millions of people hopes are high, longings are deep. But memories haunt us of the last peace and this time already there are many disquieting signs. The forthcoming conference has already focused many grievances, misfacts and differences between and within nations—of the uninvited who clamour to be there and the invited who would rather take no responsibility, of politicians committed to directly opposing policies.

We too readily think of ourselves as only spectators in this great drama. Reading the morning paper gives the same thrill as watching the last rounds of a hockey match with our side winning. But we are actors too. Generals may map a campaign, but the war is won by the millions of ordinary soldiers. So statesmen make post-war plans, but the peace has to be lived by millions of ordinary citizens. The real job of peace-making has to go on here in Canada—between labour and management, race and race, neighbour and neighbour, husband and wife and children. For the multiplication of these parties were held up to war as we have known it to-day.

Dr. Frank Buchman, founder of the Oxford Group, who 25 years ago saw that the last peace settlements left untouched the real causes of war, said in a world broadcast at the beginning of this war:

"The world must declare a moratorium on hate and fear, personally and nationally. The new peace past might have as its preamble all its contracting parties, all nations, live on basis of no hate, no fear, no greed; and the necessary prelude to this language part is that all of us begin that new quality of living now and do not postpone it for some future idealism. Then we shall be true patriots; then there will be law and order in the world, within our hearts and our nation; then we shall be able to say, 'Behold how these nations love one another!'"

Local and District

Harry Shultz, proprietor of the Queen's Hotel, was a week and visitor to Calgary.

A meeting of the Ladies' Auxiliary, Local Branch Canadian Legion, will be held in the Armories on Saturday, May 12th.

A meeting of the Delia branch Canadian Legion will be held in the Armories on Sunday afternoon, May 13th, at 8 p.m.

Mr. and Mrs. Leslie Dunlop entertained twelve guests last Saturday night to a turkey dinner and bridge. Mr. and Mrs. J. Kary were the lucky winners.

Mrs. J. Falconer, of Medicine Hat, left for last week for Calgary, on her way home after spending two weeks with her parents, Mr. and Mrs. W. W. Pifer, in Delia.

On Friday evening, 12th inst., following the D.S.U. concert in the Olympia Theatre, the U.F.W.A. sponsored a very successful dance. Lotz was served at midnight by the canteen.

Mrs. G. Brown, of White Horse, left by train on Tuesday morning to visit relatives in Vancouver after a visit of two days here with her parents, Mr. and Mrs. W. W. Pifer.

Mrs. Fred Dayman, of Drumheller, was a visitor in Delia for a couple of days last week, and incidentally acted as clerk of the auction sale held by Mrs. V. J. McInnis on Friday, which we understand was most successful.

Mrs. A. Kinsick is a patient in the Brunner nursing home, but is recovering satisfactorily.

Mrs. Geo. Lowe has just received word by mail that her nephew P.L. John Southworth of the R.A.F. (who spent his holiday here with two of his friends), has been killed in action and buried in India.

Ottawa, April 25th—Eighty-five Victoria Loan sales made today \$75,066,550 on Tuesday. It was announced here today. Combined purchases for Monday and Tuesday reached \$142,851,760. These figures compared with \$77,889,800 for the second day of the Seventh Victoria Loan and \$145,530,100 for the first two days of that loan.—National War Finance Committee.

The promised improvement in the weather of last week faded out completely, to be followed by the most inclement spring of recent years. A huge dust storm blew up about 5 p.m. Thursday last, accompanied by hail and sleet and Monday evening a heavy sleet storm turned later to a covering of two inches of snow. A heavy frost followed the temperature dropping to 16 degrees above zero. What is generally considered to be the worst blizzard of the winter developed in the early hours of Wednesday. Driven by a 50 mile an hour gale (though the snow was light), the temperature fell to 8 degrees above zero.

Cards of Thanks

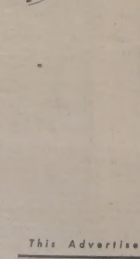

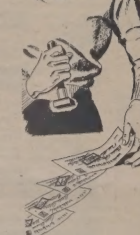

I wish to thank all my kind friends for the lovely gifts presented to me at the shower on April 18th. May I also extend a special thanks to those who took part in the program, and to the hostesses who were responsible for the success of the afternoon.

Irene (Brunner) Kary.

I wish to thank my many friends and neighbors for flowers and letters sent me, while a patient in the Holy Cross Hospital, Calgary.

Mrs. John Battle.

The stethoscope friend of human nature can change. "Or would you rather be a snail?"

"Time Bombs"

To stand on your own feet it is not necessary to step on anybody else's toes. Great men forget themselves. That's why they're remembered by others. Love is freely given on one hand when it's deserved on the other. Don't run down your neighbors. Don't sit and wait them.

We still maintain the foolish hope that some change in system may do away with the need for any change in us. The problems of tomorrow are the mistakes of today—that we haven't got right. Win a ball and the other follow too. But win a friend and you both gain. We are planning six million jobs to provide a livelihood after the war. But what are we planning to live for?

multiply by millions!

You've often watched the teller stamp your cheque. Every day, in every branch of every bank in Canada, cheques are being scrutinized, stamped and recorded. During the war years, this daily flow of cheques through your bank has swollen to a torrent. Deposit accounts are more numerous and active than ever before. This increase reflects the tremendous activity of Canadian life and business. Production, purchases and payrolls have all reached record levels.

In addition, three-quarters of a million men and women in the armed services must get their pay, and their dependents receive allowances regularly.

The handling of this wartime volume of cheques is quite apart from numerous special services which the banks have undertaken—the delivery of millions of Victory Bonds and the sale of countless War Savings Certificates; ration coupon banking; subsidy payments to producers; foreign exchange operations.

Yet all this extra work has been carried out at a time when new help has had to be trained to take the place of more than 8,500 bank workers now in uniform.
